Assignment 1: Ensure the script checks if a specific file (e.g., myfile.txt) exists in the current directory. If it exists, print "File exists", otherwise print "File not found".

mkdir Swathi

 cd Swathi

 #file name to check

file="swathi.txt"

 #check if the file exists

 then echo "File exists";

else

echo "File not found";

 fi

File exists

if [-e "$file"];

then

echo "File exists";

else

echo "File not found"; fi

File not found
